

Highly Engaging Telehealth Sessions for K-5 (Using Zoom)

Presented by
Kim Wiggins, OTR/L

Course Description and Learning Outcomes

Telehealth sessions need to be highly engaging to increase motivation and attention to your tasks! When your students are highly engaged, they look forward to your sessions and stay focused during your entire lesson! This 1-hour webinar provides specific strategies for engaging your students, using green screens, PowerPoints, and much more! Demonstrations, examples, and freebies are provided!

Learning Outcomes

1. List at least three treatment strategies that can be used to increase engagement during virtual therapy sessions.
2. Recognize the positive outcomes of using a Green Screen during telehealth sessions.
